TOP DOG BIO

Only a pup so still with L Plates. Showing great potential as a deterrent to birds. Will be a great addition to fellow dogs Danger, Selwood and Blitz who are experts in chasing birds out of the nets. Like his namesake we expect him to have a long and successful career.

Grampians Estate Range

The aim of the brand refresh was to better tell the Grampians Estate story: a small, family owned winery based on a sheep farm in the Grampians. A refocussed colour palette picks up on hues of eucalyptus and summer grass. A custom wordmark was also developed by Lachlan Richards, which evokes memory of the old woolmark, whilst appearing clean and contemporary. Print finishes, such as the foil emboss combination and choice of paper stock align with the aim to push Grampians Estate into the premium wine space.
